OBJECT:

**Digital Euro: the ECB's lies**

France, 23/01/2023

Madam President  
Honorable Members,  
Ladies and gentlemen,

You have just discovered that High Corruption can reach the very heart of our European Democracy but this attack on our freedoms is only the tip of the iceberg.

On several occasions, I have tried to alert the European Commission <sup>(1)</sup> and some European parliamentarians to the damage caused by the practices of High Finance, all validated by the European Council in which the Eurogroup <sup>(2)</sup> sits, managed by the "independent" European Central Bank (independent of the peoples and its representatives).

Our public finances have been impacted since the launch of the euro by the use of overvalued fictitious rates for the conversion of our financial assets and our incomes <sup>(3)</sup>: this manipulation has caused considerable damage that has been the real cause of the "Greek crisis" and the "subprime crisis".

This crisis of "subprime loans" <sup>(4)</sup> was quantified by the European Commission itself for amounts approved between 30/09/2007 and 30/09/2017 ranging from € 4,198 billion (EU-27) to € 5,128 billion (EU-28) but it should be noted that some countries had already tipped before September 30, 2007 significant losses of High Finance in the "balance sheet" accounts.

<sup>1</sup> Letter of 27 July 2020, addressed to the Head of Cabinet, Bjoen SEIBERT, for Mrs. von der LEYEN, entitled: **Monetary and Financial Questions, Endangering the European Institutions" (no answer).**

I had put links to YOUTUBE videos (now deleted and transferred to the ALTER-EUROPA.COM site) that summarized thousands of hours of statistical research (more than 1,000,000 figures) proving my denunciations.

My September 7, 2020 reminder email addressed to Mr. Bjoen SEIBERT, with a copy to Mr. Per HAUGAARD, for Mrs. von der LEYEN, did result in an obvious contempt.

<sup>2</sup> The Eurogroup is composed of the finance ministers of the 20 Eurozone countries + the ECB.

**ALTER-EUROPA**  
***For Another Europe...***  
***And (of course) for Another Euro...***  
***Email: [junon.moneta@gmail.com](mailto:junon.moneta@gmail.com)***

The European Commission then tried to hide this aid (approved and used) by agreeing to validate the information communicated by the various states concerned <sup>(5)</sup>: most of them then transformed the "low-balance sheet liabilities" (state guarantees) into public deficits (more than €1,000 billion in current expenditure) before tipping over more than €4,554 billion in national public debts.

The evidence of these manipulations can be apprehended by country in the VIDEO EN-04 <sup>(6)</sup> which summarizes the damage of the "subprime (loans) crisis": it hit the eight (financially) richest countries in the EU-19 very hard.

Of course, "the indispensable sacrifices" to repay "the debt" have exposed the lack of medical structures and political devices to fight a pandemic, "small" in human history, from which High Finance has once again benefited well <sup>(7)</sup>.

**When High  
Corruption is  
installed, it is**

**always more demanding.**

Today, ECB representatives are deliberately lying to the European Parliament's Economic and Monetary Committee. They hold an official discourse on the benefits of the digital euro that does not correspond to their hidden projects. You have to read all their specialized reports and high-level lectures, then "decode" them before you understand them. Above all, it is necessary to dig into the "macroeconomic models" to understand the real objectives of this project <sup>(8)</sup>.

**The European Parliament will be "asked" to legally and financially validate an unacceptable project, even though it has been validated by the European Council.**

Indeed, the real project was presented by the teams of Mr. Fabio PANETTA to the academic world who hastened to "scientifically validate" the entire articulation of this "beautiful project".

The public guarantees "necessary" to launch and sustain this project of a "new currency" (useless for the general public) are modestly estimated at 488 billion euros for the launch but, taking into account the risks, the final objective might result in requests for guarantees of 7,492 billion euros.

**These "models" are only intended to transform the ECB into a huge Investment Bank, managed by the commercial banks of the TOP-50 (through the Banking Union).**

At no time are they destined to find ways to "create" National Wealth through public and private investment.

At no time do they look at any way to create jobs, wages and regional or local infrastructure.

They even plan to "make the governments richer" through their speculative operations, and the unjust enrichments they intend to derive from them.

But it's a fake, poisonous gift they're offering you.

**Clearly, the European Parliament will be "solicited" to:**

- validate the laws and decrees drafted by the BIS as was the case for the Maastricht Treaty; • obtain an "anchor" for this "new currency" (public guarantees);
- transforming the ECB into a colossal Investment Bank;
- extend the "public guarantees" which will serve as a "lifeline" to bail out this "investment bank" in all circumstances.

Appendix 4: Video EN-04

Slide 34: The "Heroic" Management of the corona-crisis by the Bankers (Sorry: "By the Monetary Financial Institutions") <sup>8</sup> Part III of my analyses (22 pages) consists of contrasting the official statements made to the representatives of the European Parliament and the media with those made to the financial world. That speaks for itself.

Yet it is in Part IV (more than 36 pages) devoted to macroeconomic models that the real project of the ESCB and the BIS becomes evident.

*Email: [junon.moneta@gmail.com](mailto:junon.moneta@gmail.com)*

**ECB representatives brazenly lie to the European Parliamentary Group for Economic and Monetary Affairs (and the media).**

All this work (about 80 A4 pages) proves that the digital euro will not be this "small project" to offer more digital services to the population because all these promises are already part of the reality in China and even Mongolia.

On the contrary, local, regional and cooperative commercial banks are set to disappear rapidly, condemning the regions

to compensate for the lack of credit and capital for small and medium-sized enterprises, as well as for mid-caps in agriculture, industry and commerce

The Regions themselves should be responsible for the distribution of 'ration tickets' or other 'local currencies' in rural areas and small towns to compensate for the disappearance of coins, notes and/or ATMs (which is already the case today).

**My work is almost finished: it will consist of four parts.**

- Digital Currencies, State of Play (17 pages)
- The European Payments System, State of Play (12 pages)
- High Finance Versions: Who Said What? to Whom? (22 pages)
- The Great Reset in macroeconomic models (36 pages?): the Unsaid.

**Please let me know quickly if you are interested.**

In my humble opinion, it would be preferable for the European Parliament to be the only recipient of these comprehensive reports and for it to assert itself courageously, as soon as possible, before the European Council, the European System of Central Banks and the Bank of International Settlements who are “in a hurry” to launch this “wonderful project”.

I also think that the European Commission should be "reframed" seriously, much more than the European Parliament, currently alone in a very difficult situation.

Please accept, Madam President, Mister Head of Cabinet, ladies and gentlemen, the expression of my most respectful greetings.

ALTER-EUROPA

NB: The figures for these successive spoliations (increasingly important) are available on the ALTER-EUROPA website:

APPENDICES 1

**SPECULATION AGAINST THE EURO FOR THREE YEARS HAS EARNED 3,500,000,000,000 EUROS TO HIGH FINANCE**

- BIG WINNERS:**
- BANKERS (F&M)**
    - €€ 1.461 in one night
    - €€ 2.757 between 31/12/1998 and 1/1/2002
  - INSURANCE, PENSIONS AND OTHERS (LIFE INSURANCE)**
    - €€ 175 in one night
    - €€ 707 between 31/12/1998 and 1/1/2002
  - TOTAL**
    - €€ 1.836 in one night
    - €€ 3.464 between 31/12/1998 and 1/1/2002

ALTER-EUROPA  
For Another Europe  
And (of course) for Another Euro

APPENDICES 2

**MISLEADING PRESENTATION OF STATE AID APPROVALS TO THE FINANCIAL SECTOR 2008- 2017 (in billion euros)**

Table 1 - Total amount of state aid to banks approved and used in the EU over the period 2008-2017 (in billion EUR)

Member State	2008	2009	2010	2011	2012	2013	2014	2015	2016	2017	2018-2017 (per state)
EU (excl. UK)	362	382	343	321	262	262	262	262	262	262	2,098.00
EU (incl. UK)	362	382	343	321	262	262	262	262	262	262	2,098.00
EU (excl. UK) (per state)	362	382	343	321	262	262	262	262	262	262	2,098.00
EU (incl. UK) (per state)	362	382	343	321	262	262	262	262	262	262	2,098.00

In short, DG COMPETITION tells us that headings 1 & 2 can be added together. We accept these figures. On the other hand, for sections 3 & 4, the number represents "the maximum"; "do not add up" (!). We will demonstrate that this is false.

Clearly, the DG-COMPETITION (EUROPEAN COMMISSION) "informs" us that the APPROVED STATE AID IN FAVOUR OF THE FINANCIAL SECTOR cost a **MAXIMUM** of **€3,128.0 billion for the EU-28** (addition of the figures above); AND, THEREFORE, A **MAXIMUM** OF **€4,198.6 billion for the EU-27**.

*Twenty-two years and unprecedented destruction of Wealth in peacetime (in €Bn)*

yen (in €Bn).

Delta GDP Delta DEBT Delta Net WEALTH

VDL (3 years done) VDL (5 years best) VDL (5 years worst)

Madam President of the European Parliament, Ladies and Gentlemen,

You must react very quickly because the

management of our currencies by the European System of Central Banks

has already weakened us (in only 22 years)...

With the digital euro, European High Finance can make us relive the traumatic history of the "Papiermark" because their goal is to "save themselves" from a disastrous management of the euro (and associated currencies)

For the record, hyperinflation increased between the end of November 1921 and the end of November 1923, created widespread misery in Germany.

This tragedy allowed Hitler to take power in 1933, and our most extreme political parties are always on the lookout for these kinds of situations.

"The European Dream" is no longer a dream to the point that Mrs. von der Leyen is likely to end this mandate in the worst conditions.

Please be more vigilant:

***"The possible is what we really want,  
for the Good and the Beautiful,  
with the utmost conviction".***
